Subject:	Blood Cancer Discovery BCD-25-0327R1 -- Decision Rendered
Email	<p>Re: BCD-25-0327R1</p> <p>"Laying the Foundation for Clinically Actionable Genomic Subtyping in Diffuse Large B-cell Lymphoma"</p> <p>Dear Dr. Morin,</p> <p>Thank you again for submitting your review article to <I>Blood Cancer Discovery</I>, which we are very happy to publish. We appreciate the interesting contribution to the journal, which we think should be widely read by our readership. Please ensure that you read this letter in its entirety for important details surrounding production and publication.</p> <p>Proofs</p> <p>Please note that you will receive page proofs at this email address within 4 to 8 weeks. If you expect your email address to change within this period, please notify us immediately.</p> <p>Detailed editing instructions will be sent to you along with the proofs. We ask that you please read, correct, and return the proofs within 2 business days. Please note that, if proofs are not returned within this time frame, final publication of the article may be delayed.</p> <p>Please note that all AACR journals now offer OnlineFirst publication of accepted articles. The OnlineFirst publication of your Review will be the final edited version incorporating any corrections or changes made at the proof stage.</p> <p>Funding Mandates</p> <p>Please note that the AACR will automatically deposit the final typeset article in PMC and Europe PMC with no embargo period as part of an agreement with PubMed Central.</p> <p>Billing</p> <p>Please note that no publication fees are charged for invited articles. However, if you chose the Open Access option, you will be charged the Open Access license fee. All processing is administered by the Copyright Clearance Center (CCC) through their online billing platform RightsLink. If any fees are associated with this manuscript, you will soon receive an email from the RightsLink Author system at copyright.com. The email notification will contain a link to view and pay these charges. Please confirm your order promptly upon receipt to begin the payment process and avoid publication delays.</p> <p>Twitter</p> <p><I>Blood Cancer Discovery</I> is on Twitter at @BCD_AACR. The journal may tweet about your article upon its publication. If you would like to give the journal the option to tag you or your institution in any such tweets, please send the desired Twitter handles to the journal office at bloodcancerdiscov@aacr.org as soon as possible.</p> <p>Thank you very much again for submitting your outstanding manuscript to <I>Blood Cancer Discovery</I>. We sincerely appreciate your support of the journal, and we are looking forward to publishing your work shortly.</p> <p>Sincerely,</p> <p>Abigail Cleveland, PhD Assistant Editor Blood Cancer Discovery</p>
